**Total Education Solutions Opens Family Friendly Clinic,  
Serving Children with Autism Spectrum Disorders and Other Special Needs**

Sacramento, CA, June 4, 2012—Special education service provider Total Education Solutions (TES) is excited to announce the opening of its newest clinic, catering to the greater Sacramento region. The new location offers therapeutic and educational services for children of all ages and abilities, focusing extensively on individuals with Autism and/or other special needs. TES' clinic, the company's fourth in the state, provides resources and support while building relationships with families and the community.

Though TES' Northern California office has successfully provided many of its services through its School Services Program since 2000, its Clinical Services Program has grown exponentially in the last couple of years. The program's expansion was in direct response to the increasing need for quality special education services in community, home, online, and clinic settings. Since then, the company has differentiated itself from competitors by offering individualized, multidisciplinary therapies to meet the specific needs of the children it services. With the opening of the clinic TES continues to differentiate itself by offering a family friendly atmosphere, personable in-takes, and the unique opportunity for families and children to meet their therapist before ever starting services.

"Parents throughout the Greater Sacramento area have been searching for a place where their child can receive all of his or her special education services in one location, where they can work with an entire team of professionals to meet their child's specific needs...our new family-friendly clinic is that place!" said Traci Bean, Clinic Director for TES' Northern California Region.

TES' Clinical Services division offers one-on-one and small group sessions in Speech and Language Therapy, Feeding Therapy, Physical Therapy, Occupational Therapy, Academic Tutoring, Intensive Academic Instruction, and Behavior Support Services. In addition to year-round therapy services, assessments, and screenings, TES will also host Speech and Language, Social Skills, Handwriting, and Tutoring programs over the summer. The company accepts a wide range of insurances and is an approved vendor for regional centers across California.

An open house will be held on Saturday, June 9, 2012, from 1pm to 4pm. Attendees will receive a tour of the clinic, have the opportunity to speak with staff, and enjoy appetizers and refreshments. All are welcome.

TES' new Sacramento clinic address is 1337 Howe Avenue, Suite 107, Sacramento, CA 95825. The main phone number is (916) 564-5010 and the fax number is (916) 564-5260.
